NEWS - The early year planting, ground preparation and looking after the crops has been in full swing.

A month of Sun and rain have brought the crops on well. We are still right in the middle of the hungry gap but the new season's crops are just starting to come in (slowly) and we should have lots of our own lovely produce fresh for you by the end of the month.

The Keveral Possie planted 16,000 plants of various sorts at Trerieve farm over the last week, we now have 2 weeks to weed and maintain the previous planting of (1.4km) 10,000 plants before the next 30,000 arrive in mid June.

Hoeing the spring crops at Trerieve Farm, the white nets provide essential protection from rabbits, insects and birds and help the young crops develop as quickly as possible.

Seed sowing and transplanting into corn starch mulch. The mulch which looks like black plastic composts after one season and suppresses weeds allowing crops like onions to be grown more easily in Organic systems.

3000 Celeriac plants transplanted into a clean bed.

This has meant we have all been extremely busy so apologies for the lack of an April newsletter and the late issue of statements.

Phone out again ! The rain and thunder storms of a few weeks ago also managed to take the veg box phone out again for the second time this year. It is just about to be put right but please email (or mobile) any queries and order changes for the next week and sorry if your call has not been responded to, both the line and the phone were damaged.

CUSTOMERS PAYING BY REGULAR BANK TRANSFERS Please ensure you have contacted your bank to change your payment to reflect the price rises that came in on April 1st.

Many people have yet to do so and are getting into arrears. **the NEW PRICES FOR BOXES are**
