Local - Organic - Fresh

NEWS - WE ARE ONE HUNDRED !

Not years .. but families. We are now making regular deliveries to one hundred families from Polperro to Plymouth, Seaton to Liskeard.

We are still a tiny box scheme compared to most of our competitors but we have big hearts and we very much appreciate the support from all of our customers, so a very big **Thank You** to you all.

Great for fruit ... and ducks ...and slugs

OK I am very sorry I said we secretly wanted rain. It can stop now please.

Constant low level damp is a bit of a bother for the moulds and similar things it causes on the delicate crops. And slug numbers are at very high levels.

Silver linings - Mind you as the summer water pump at Keveral has been broken for a few weeks awaiting the arrival of a new one we have been surviving off the ram pump, which wouldn't work without the flow through the spring the rain has brought. And the rain water collection tanks that also feed the irrigation. So its not all bad.

The fruit areas at Keveral are bulging with lovely berries ! . The white nets keep the birds and beasties off the best ones so you can have them.

The Candy family's new potatoes are now in the boxes and they taste wonderful.

We are planting the main crop brassicas and leeks at Trierieve this week. Lots of cauliflowers, cabbages and broccoli for a few months time.

The tomatoes are all green in the tunnels, we just need a little more sun and you will be getting more of them.

June recipe. - I am cheating a bit (ran out of time)

And space.....

Take lots of lovely new potatoes. Boil gently and toss in butter.

And don't forget some nice Cornish ice cream with your berries.
